

**W3C Validator** <https://jigsaw.w3.org/css-validator/>

CSS file	Result	
style.css	No errors	Warnings :Due to their dynamic nature, CSS variables are currently not statically checked
checkout.css	No errors	Warnings :Due to their dynamic nature, CSS variables are currently not statically checked
profiles.css	No errors	Warnings :Due to their dynamic nature, CSS variables are currently not statically checked

**The warnings above are not considered an issue. The css variables are valid and work. The warning is a message to the user that the validator is not capable of assessing css variables completely.**
