

## Epic 1 : Website

### User Stories:

- 1. Landing Page:** As a site user I can ascertain the sites purpose and view information regarding the services the company provides so that I decide whether or not I'd like to avail of the company's services.
- 2. Navigation:** As a site user I can intuitively navigate the website so that I can find the information and site services I would like to access.
- 3. About us:** As a site user I can read about the company ethos so that I can find out if the company is one from whom I would like to make purchases.
- 4. Newsletter:** As a site user I can sign up for a newsletter so that I can be informed of any news, events or other information related to the company.
- 5. Facebook:** As a site user I can navigate to the company Facebook business page so that I can see information relating to the company's activities that have been posted on Facebook and are not present on the company website.
- 6. How it Works:** As a site user I can view more in depth information about the services provided by wild carbon than can be found on the landing page so that I can feel confident I'm investing in the right company to offset my carbon.

### Workflow

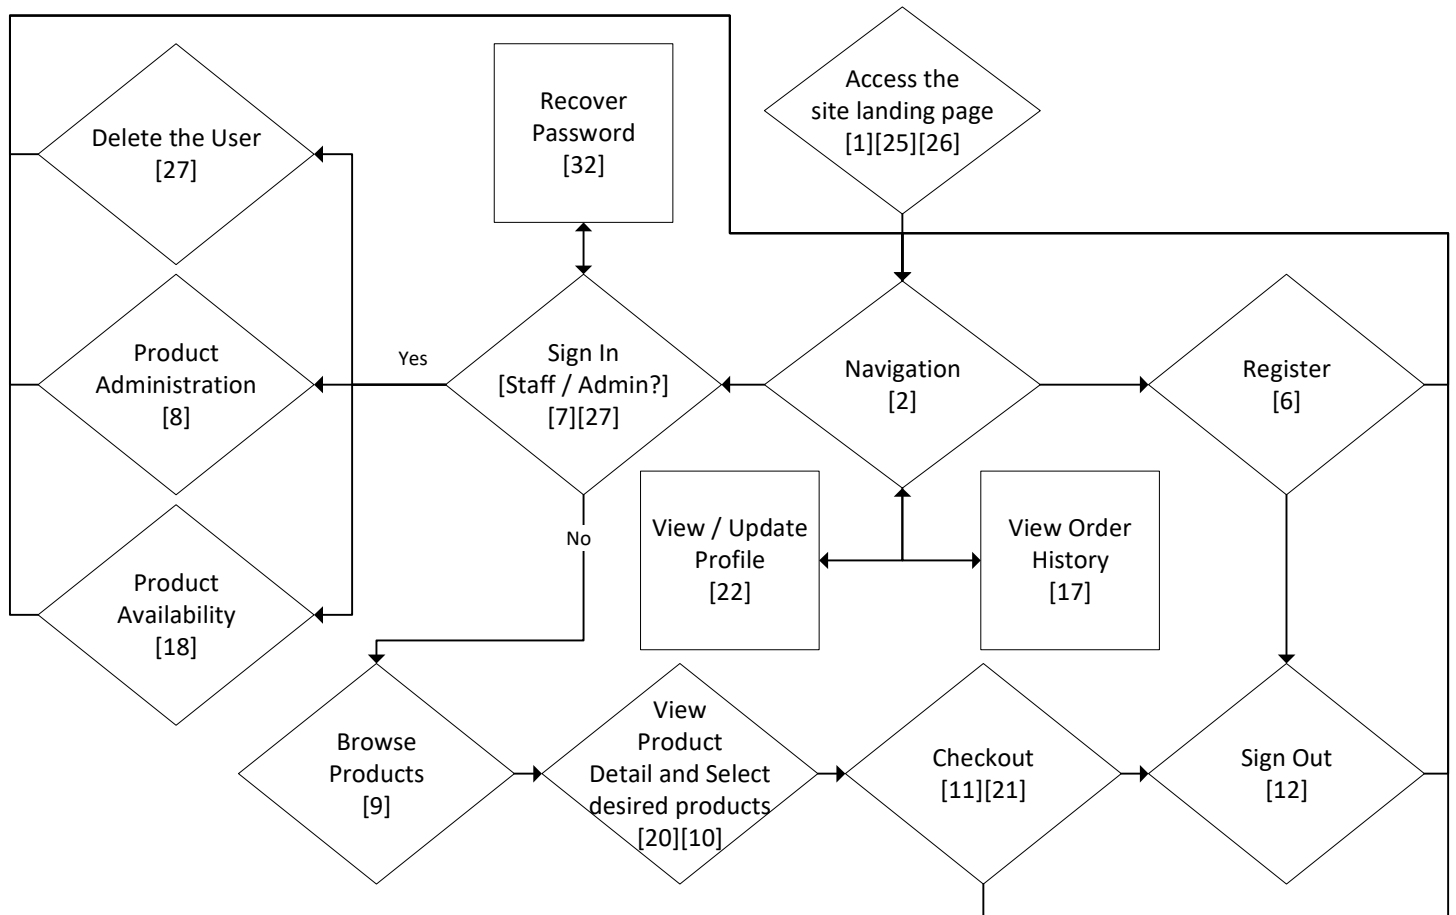

### Required Features / Data Name [id]

Feature [1]	Landing Page	Feature [4]	About Us
Feature [2]	Navigation	Feature [5]	Facebook
Feature [3]	Newsletter	Feature [19]	How It Works
		Feature [25]	Header
		Feature [26]	Footer

**User Stories:**

- 1. User registration:** As a Site User I can register on the website and create an account so that I can log into the website and make purchases linked to that account.
- 2. User Sign In:** As a Site User / Staff Member (superuser permissions) / Site Admin (staff and superuser permissions) I can sign into the website so that I can make purchases.
- 3. Password Recovery:** As a site user I can easily recover my password in case I forget it so that I can regain access to my account.
- 4. User Sign Out:** As a Site User / Staff Member (superuser permissions) / Site Admin (staff and superuser permissions) I can sign out of the website so that others cannot access my account from the device I've been using.
- 5. User Deletion:** As a Site Admin (staff and superuser permissions) I can delete users should a need arise.
- 6. Plant Product Administration:** As Staff Member (superuser) / Site Admin (staff and superuser permissions) I can add, view, update and delete plant products so that I can administer the plants in the system.
- 7. Plant Product Availability:** As a Staff Member (superuser) / Site Admin (staff and superuser permissions) I can select the plant products that I want listed as products available for the location so that, at any given time, only appropriate plants for that location can be purchased and plants don't need deleting to un-list them (so the data doesn't need re-entering should they become suitable for listing again in the future).
- 8. Plant Product View:** As a site user I can view a list of plants that can be grown and planted on my behalf at the location so that my carbon footprint can be offset over time.
- 9. Basket:** As a site user I can select a collection of trees so that I can purchase all the trees I want planted at the location on my behalf at the same time.
- 10. Checkout:** As a site user I can purchase the service of the trees in my basket being planted and maintained on my behalf so that I can work towards my life's carbon footprint being offset.
- 11. Profile:** As a site user I can save my profile so that I don't have to re-enter my details the next time I order.
- 12. Order History:** As a site user I can see my order history so that I can remind myself of what I've commissioned.

## Workflow

Required Features / Data Name [id]	
------------------------------------	--

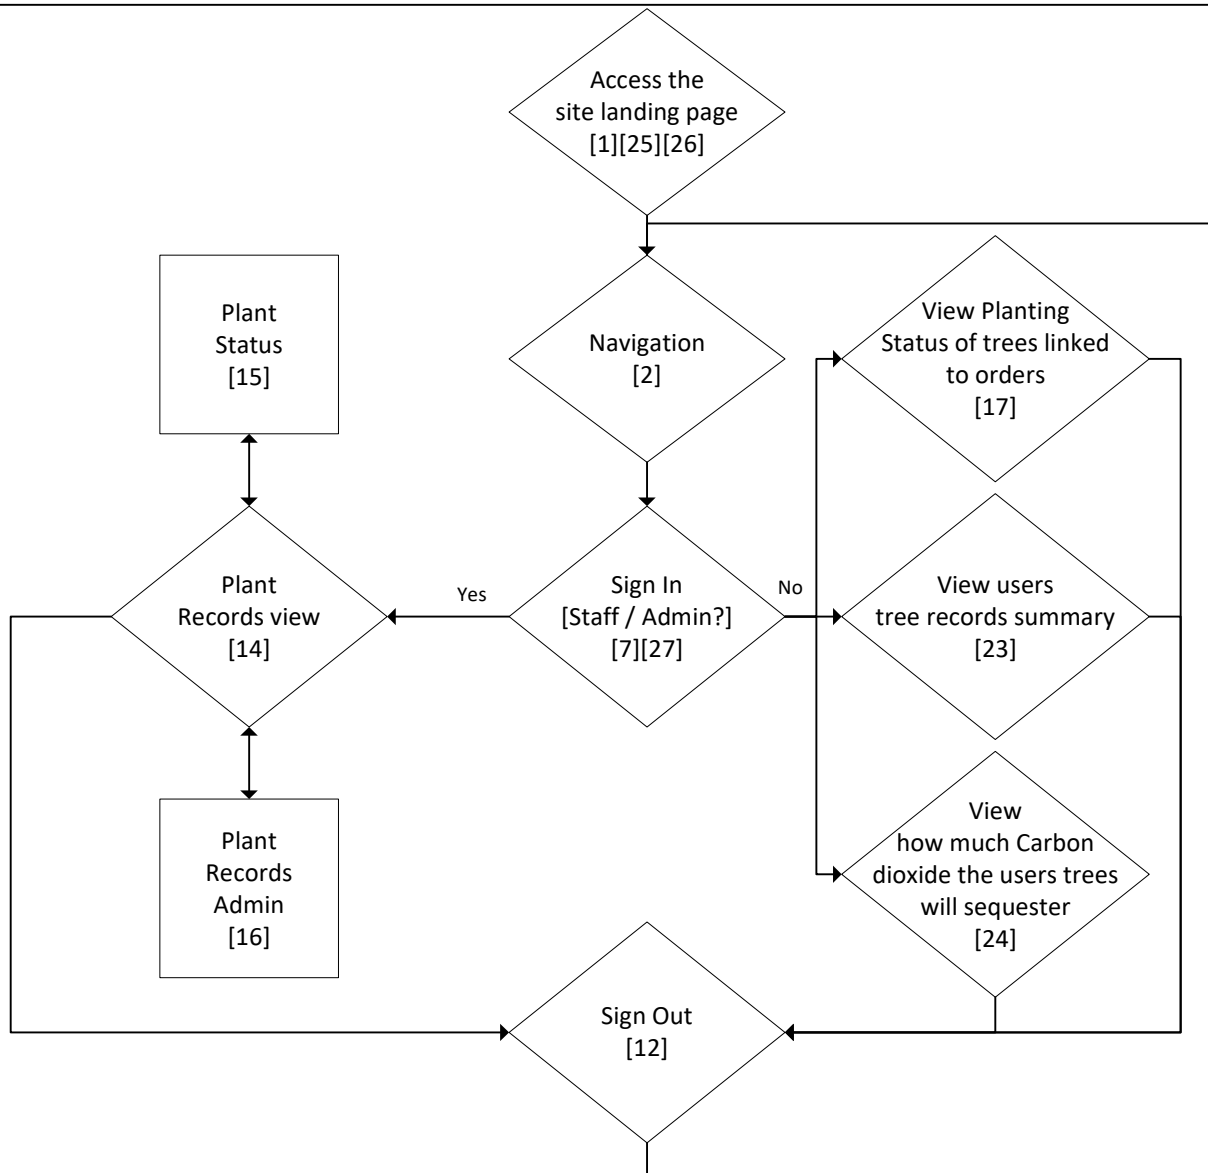

Feature [1]	Landing Page	Feature [12]	Sign Out
Feature [2]	Navigation	Feature [18]	Plant Product Availability
Feature [6]	Register	Feature [20]	Plant Product Details
Feature [7]	Sign In	Feature [21]	Order Confirmation
Feature [8]	Plant list	Feature [22]	Profile
Feature [9]	Location Plant Products	Feature [17]	Order History
Feature [10]	Basket	Feature [25]	Header
Feature [11]	Checkout	Feature [26]	Footer
Feature [28]	Add Plant	Feature [27]	Admin Page
Feature [29]	Edit Plant	Feature [32]	Password Reset
Feature [30]	Delete Plant		

## Epic 3 : Fulfilment

### User Stories:

- 1. Carbon summary:** As a site user I can see details regarding how much carbon the trees I've commissioned to be grown and planted will sequester so that I can see at a glance how I'm doing with regards to offsetting my life's carbon footprint.
- 2. Plant status:** As a Staff Member (superuser permissions) / Site Admin (staff and superuser permissions) I can see a list of all plant records with their current states and change their state so that I can take appropriate action and move the plants through the planting workflow appropriately.
- 3. Plant record admin:** As a Staff Member (superuser permissions) / Site Admin (staff and superuser permissions) I can add and delete plant records for the rewilding site so that I can add and delete location plant records not linked to an order.
- 4. User order plant status:** As a site user I can see the status of trees linked to my orders so that I can see when orders have been completely fulfilled.
- 5. User plant records:** As a site user I can view list of all the trees that I've commissioned and the trees planting workflow state so that I can see at a glance a summary of the trees I've commissioned and what workflow state they're currently in without having to look at order details at the same time.
